

ADHESIVE COMPATIBILITY

APPLICABLE TO THERMALSTAR® PRODUCTS

ThermalStar® rigid insulation products are often applied to various substrates with the use of adhesives. The use of adhesives specifically designed for use with polystyrene foams must be used as some adhesives contain solvents which can damage polystyrene foams.

The following is a partial list of general use adhesives sold for use with polystyrene foam. Please contact the adhesive manufacturer for installation instructions.

GENERAL USE ADHESIVES		
ADHESIVE NAME	MANUFACTURER	WEBSITE
3M Polystyrene Foam Insulation 78 Spray Adhesive	3M	www.3M.com
