

# FOOD CONTACT DISCLOSURE

## APPLICABLE TO DURATHERM® EPS AND GPS PRODUCTS

Atlas Molded Products is committed to sustainability and providing transparent information to users of our products. This Food Contact Disclosure summarizes important information concerning the use of DuraTherm® EPS and GPS products with respect to contact with food.

Atlas uses a wide range of raw materials in the production of block-molded and shape-molded products and not all raw materials used in EPS and GPS production are certified for direct food contact. Thus, we cannot declare that all our products meet FDA food contact requirements.

Atlas Molded Products remains committed to transparency and product stewardship. Customers requiring EPS or GPS products for direct food contact applications should consult with their Atlas representative to ensure suitable products are provided that meet FDA requirements.
