

# PFAS COMPLIANCE

**APPLICABLE TO DURATHERM®, ELEVATION® AND THERMALSTAR® PRODUCTS**

Atlas Molded Products is committed to sustainability and providing transparent information to users of our products. This Compliance Statement is being provided to demonstrate compliance of molded polystyrene foam produced by Atlas Molded Products with respect to the use of Per- and polyfluoroalkyl (PFAS) substances.

PFAS substances are very persistent in the environment and in the human body— meaning they don't break down and they can accumulate over time. There is evidence that exposure to PFAS substances can lead to adverse human health effects.

Atlas Molded Products' molded polystyrene foam products do not contain PFAS substances.
