

# TAPE COMPATIBILITY

APPLICABLE TO THERMALSTAR® E+, X+, AND G+ PRODUCTS

ThermalStar® E+, X+, G+ have an integrated film facers which serve as a code compliant water resistive barrier when flashed and taped in accordance with ICC-ES ESR-1962, DrJ TER 1905-02, or UL ER16529-01.

The following is a partial list of alternative compatible tapes for use on ThermalStar E+, X+ and G+ products with good adhesion and long term performance:

## GENERAL USE TAPES

TAPE NAME	MANUFACTURER	WEBSITE
3M 8087 or 3M 8777	3M	www.3M.com
Dow Weathermate	DuPont	www.DuPont.com
Tyvek Tape	DuPont	www.DuPont.com
Typar Construction Tape	Typar	www.Typar.com
Insulfoam Polyguard 136	Insulfoam	www.Insulfoam.com

This is not a complete list of general use tapes. Other tapes deemed compatible by the tape manufacturer are acceptable alternatives.

In addition to taping, large gaps may be also filled using spray foam or sealants. The manufacturer of the spray foam or sealant should be consulted for compatibility with rigid foam boards.
