## BENEFITS

- With locations nationwide, Atlas Protective Packaging products can be manufactured coast-to-coast, greatly reducing shipping costs.
- Our experienced and dedicated packaging team will work with you to select the most cost-effective packaging solution to meet your needs.
- Our in-house packaging engineers can provide 3D modeling and prototyping to design protective packaging specific to your requirements.
- Utilizing state-of-the-art CAD software, our designers can produce a fabricated part that will precisely fit your product.
- Atlas Protective Packaging products are 100% recyclable at the end of their service life, which can be dropped off at any of our locations for recycle.

See Atlas Molded Polystyrene Tech Data Sheet for a full listing of the physical properties.
